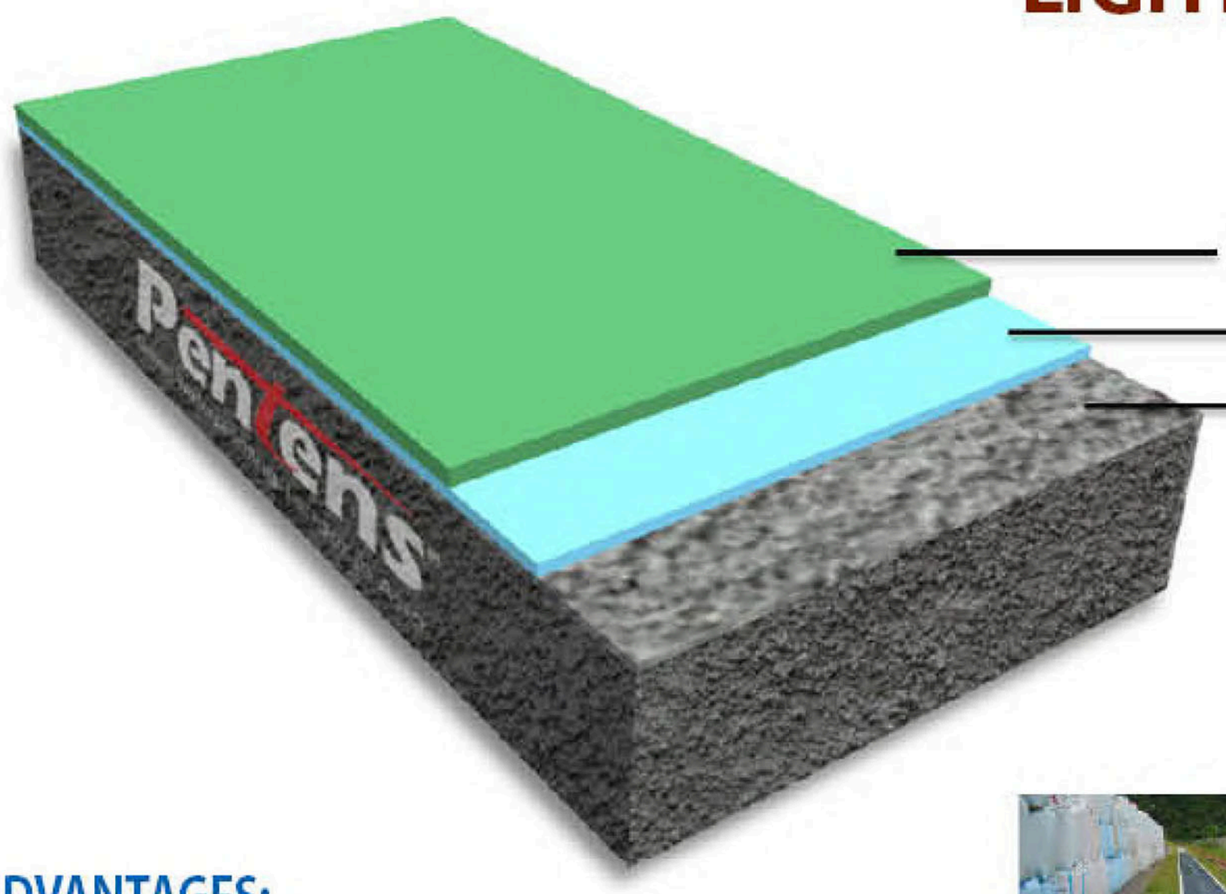
ANTI CORROSION PROTECTIVE COATING SYSTEM

RC/METAL TANK LINING, MACHANICAL & CHEMICAL RESISTANT SOLUTION

LIGHT



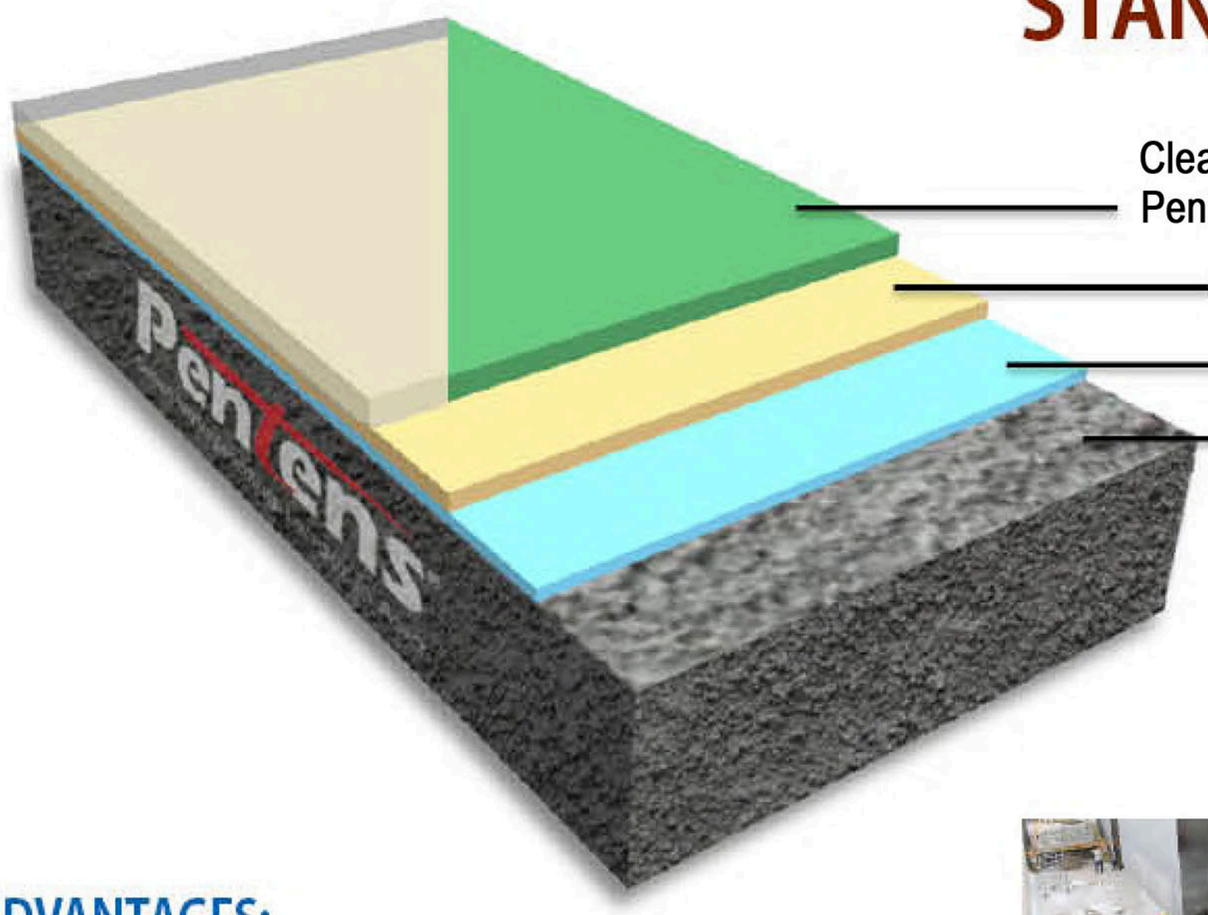
300~400 micron

ADVANTAGES:

- Sovent free, Non-flammable
- Low VOC, Odorless
- Good chemical resistance
- Excellent wear and impact resistant properties

- Taiwan Taipei Water Company water purification plant.
- Thailand Pathum Thani Water Company purification pool.

STANDARD



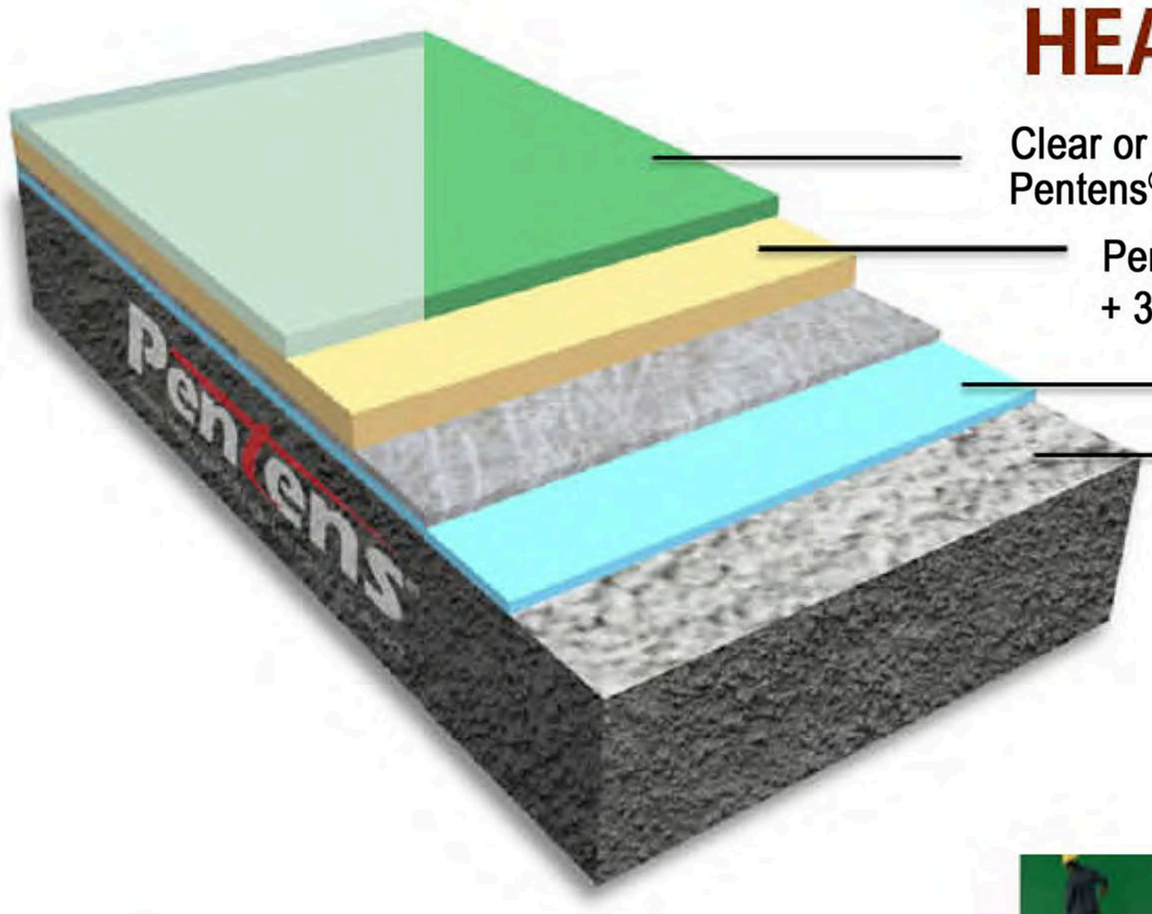
950~1100 micron

ADVANTAGES:

- Sovent free, Non-flammable
- Low VOC, Odorless
- High adhesive strength
- Low viscosity, Good penetration
- High mechanical and chemical resistance
- Short waiting times

- Taiwan Tainan Science Park water treatment plant.
- Vietnam Ha Tinh waste water treatment plant.

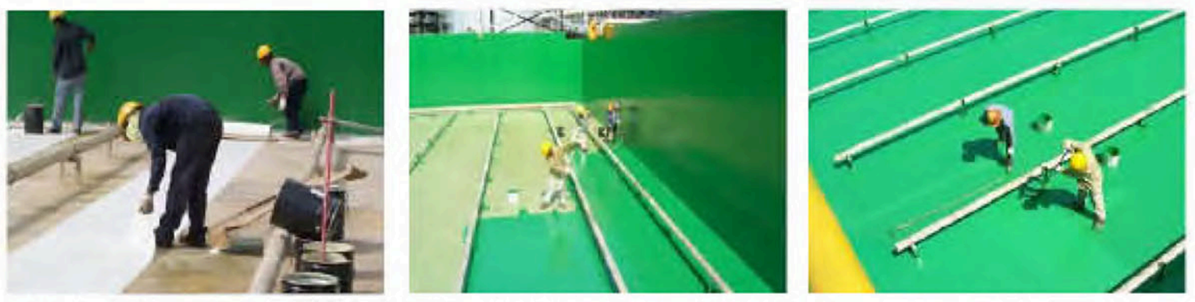
HEAVY (FRP)



4000 micron

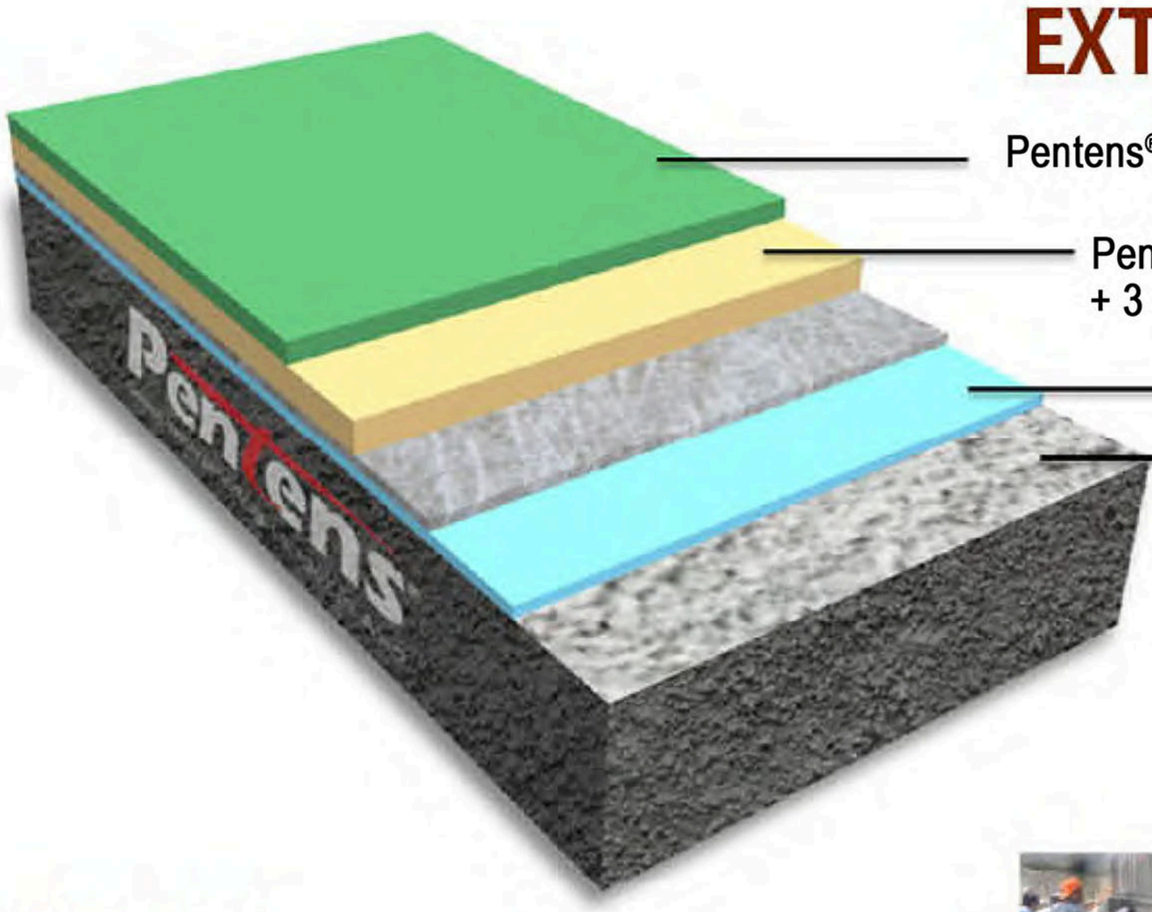
ADVANTAGES:

- Sovent free, Non-flammable
- Low VOC, Odorless
- High adhesive strength
- Low viscosity, Good penetration
- Very high mechanical and chemical resistance



- Malaysia Johor POWER (TANJUNG BIT) Plant waste water treatment.
- Vietnam Binh Duong winery waste water pit.
- Taiwan Taichung Science Park water treatment plant.

EXTREME (FRP)



4000 micron

ADVANTAGES:

- Sovent free, Non-flammable
- Exhibits excellent resistance to strong acids, alkalis, and most industrial chemicals and solvents.
- High mechanical loading capacity

- Vietnam VEDAH waste water treatment.
- Taiwan HIWIN Technologies Corp, Plating pit, pH control pit.
- Taiwan Winling CO-TECH Development, Plating waste water pit
